

Artistic Adventures

Ages: 3-5

Less than 30 minutes

Grownup needed

Autumn is the best season to observe leaves. As leaves transform from green to various shades of red and yellow, they never cease to amaze us. We want to turn these beautiful natural elements into an art project suitable for children, allowing them to closely observe the shapes, colours, and textures of leaves while using their creativity to make their own natural crown.

Materials Needed

10cm x 40cm cardboard
leaves
scissors
pencil
ruler
pipe cleaners
white glue

Step-by-step tutorial

Step 1

Take the 10cm x 40cm cardboard and use a pencil and ruler to mark points at 4cm and 7cm along the shorter edge. Then draw two vertical lines from these marks.

Step 2

On the drawn vertical guide lines, mark points every 2cm. Then, as shown, connect the upper and lower points diagonally with a pencil to create a row of triangles.

Step 3

Use scissors to cut away the triangles from the upper part of the cardboard along the guide lines.

Step 4

Using a ruler as a guide, create fold lines on the cardboard as shown.

Step 5

Apply white glue to the rightmost triangle of the cut cardboard to join the crown together.

Step 6

Now take your favourite pipe cleaners and leaves, and decorate your crown by gluing them on!

Step 7

Wait for the glue to dry, and your leaty crown is complete! Try creating different styles using various coloured leaves and twigs!
