

This is a creative activity that will amaze you once completed. You can use the same method to make bookmarks, greeting cards, and various other items. It makes for a wonderful Father's Day gift or a fun activity to do with dad.

Materials Needed

Tray
Card paper
Acrylic paint
Marker pens
Pencil
Lolly sticks
Scissors
Shaving foam

Step-by-step tutorial

Step 1

Take the card paper and fold it in half twice.

Step 2

Using a pencil, draw a heart on the folded card paper. Cut along the pencil lines with scissors. This will give you 4 heart-shaped pieces of card.

Step 3

Next, fill the tray with shaving foam.

Step 4

Squeeze different colours of acrylic paint onto the shaving foam.

Step 5

Use a lolly stick to swirl the paint as shown.

Step 6

Take your cut-out heart cards and place them on the swirled shaving foam, ensuring the card makes full contact with the foam.

Step 7

Use a lolly stick to scrape off the excess shaving foam from the cards. Your printed cards are now taking shape.

Step 8

Once the cards are dry, write your message using marker pens, and your heart greeting cards are complete!
