Marbled Leaf Painting

Artistic Adventures

Ages: 3-5

Less than 30 minutes

Grownup needed

Creating these marbled leaves is great fun! Of course, if it happens to be autumn and you've collected lots of fallen leaves, using real leaves will make it even more natural. This craft is quite simple - just press leaves into shaving foam and paint, then scrape them off to create unique marble patterns!

Materials Needed

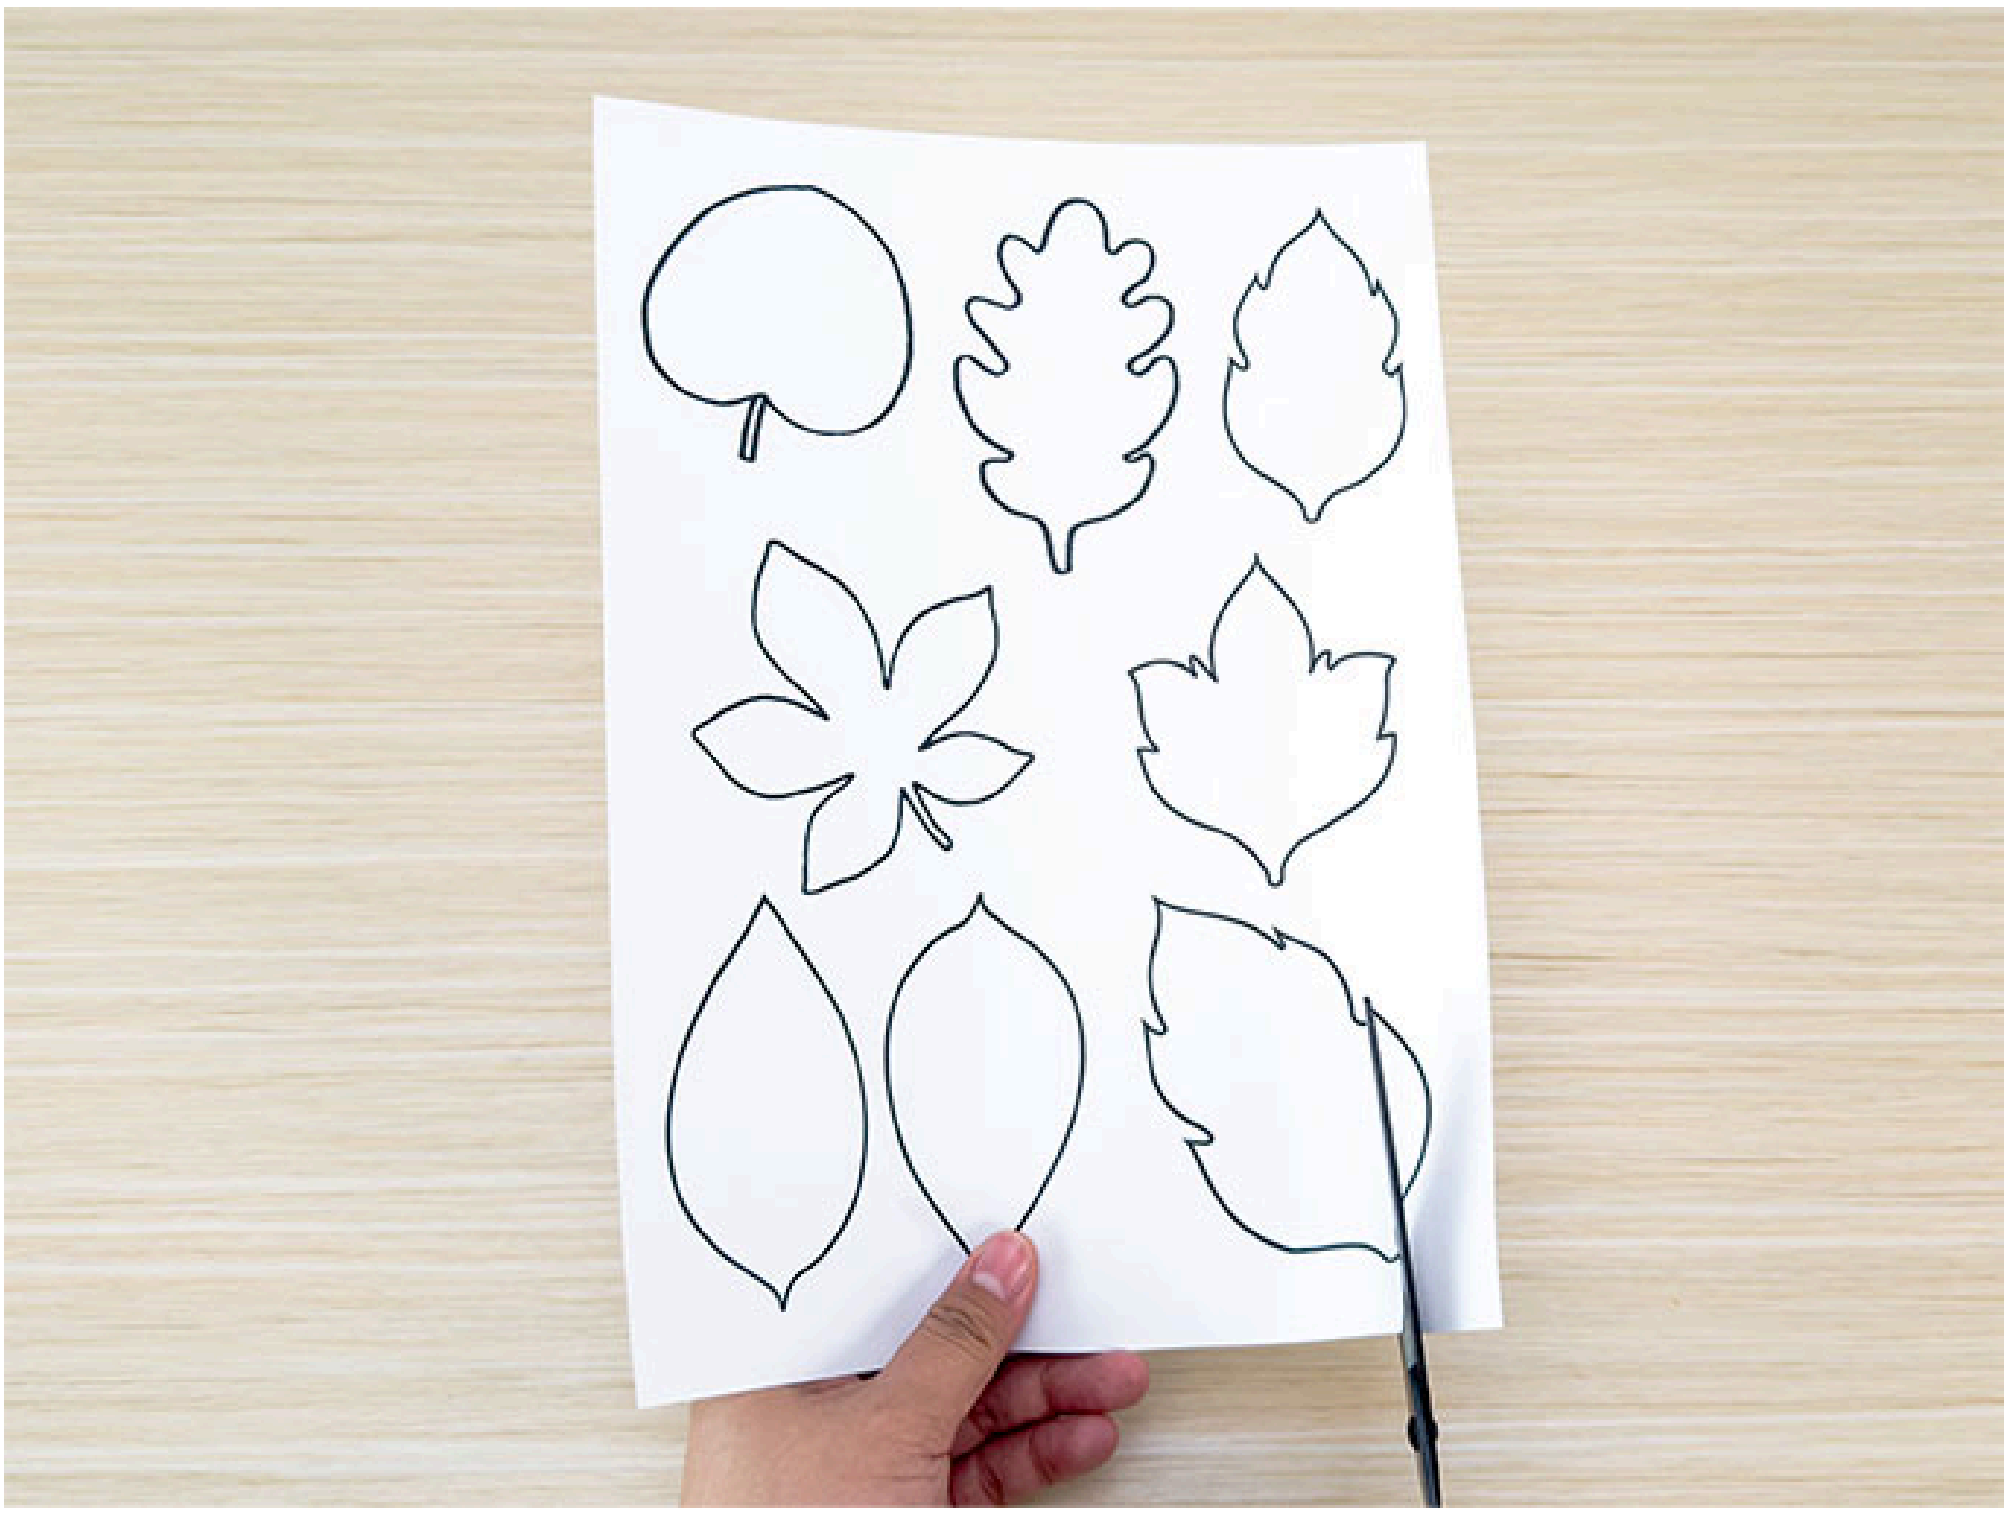

Shaving foam
acrylic paint
scissors
printable template
plate
scraper (clean ruler)
lolly stick

Step-by-step tutorial

Step 1

Using scissors, carefully cut out the leaf shapes from the printable template.

Step 2

Squeeze shaving foam onto the plate.

Step 3

Squeeze different colours of acrylic paint onto the shaving foam.

Step 4

Use the lolly stick to swirl the acrylic paint.

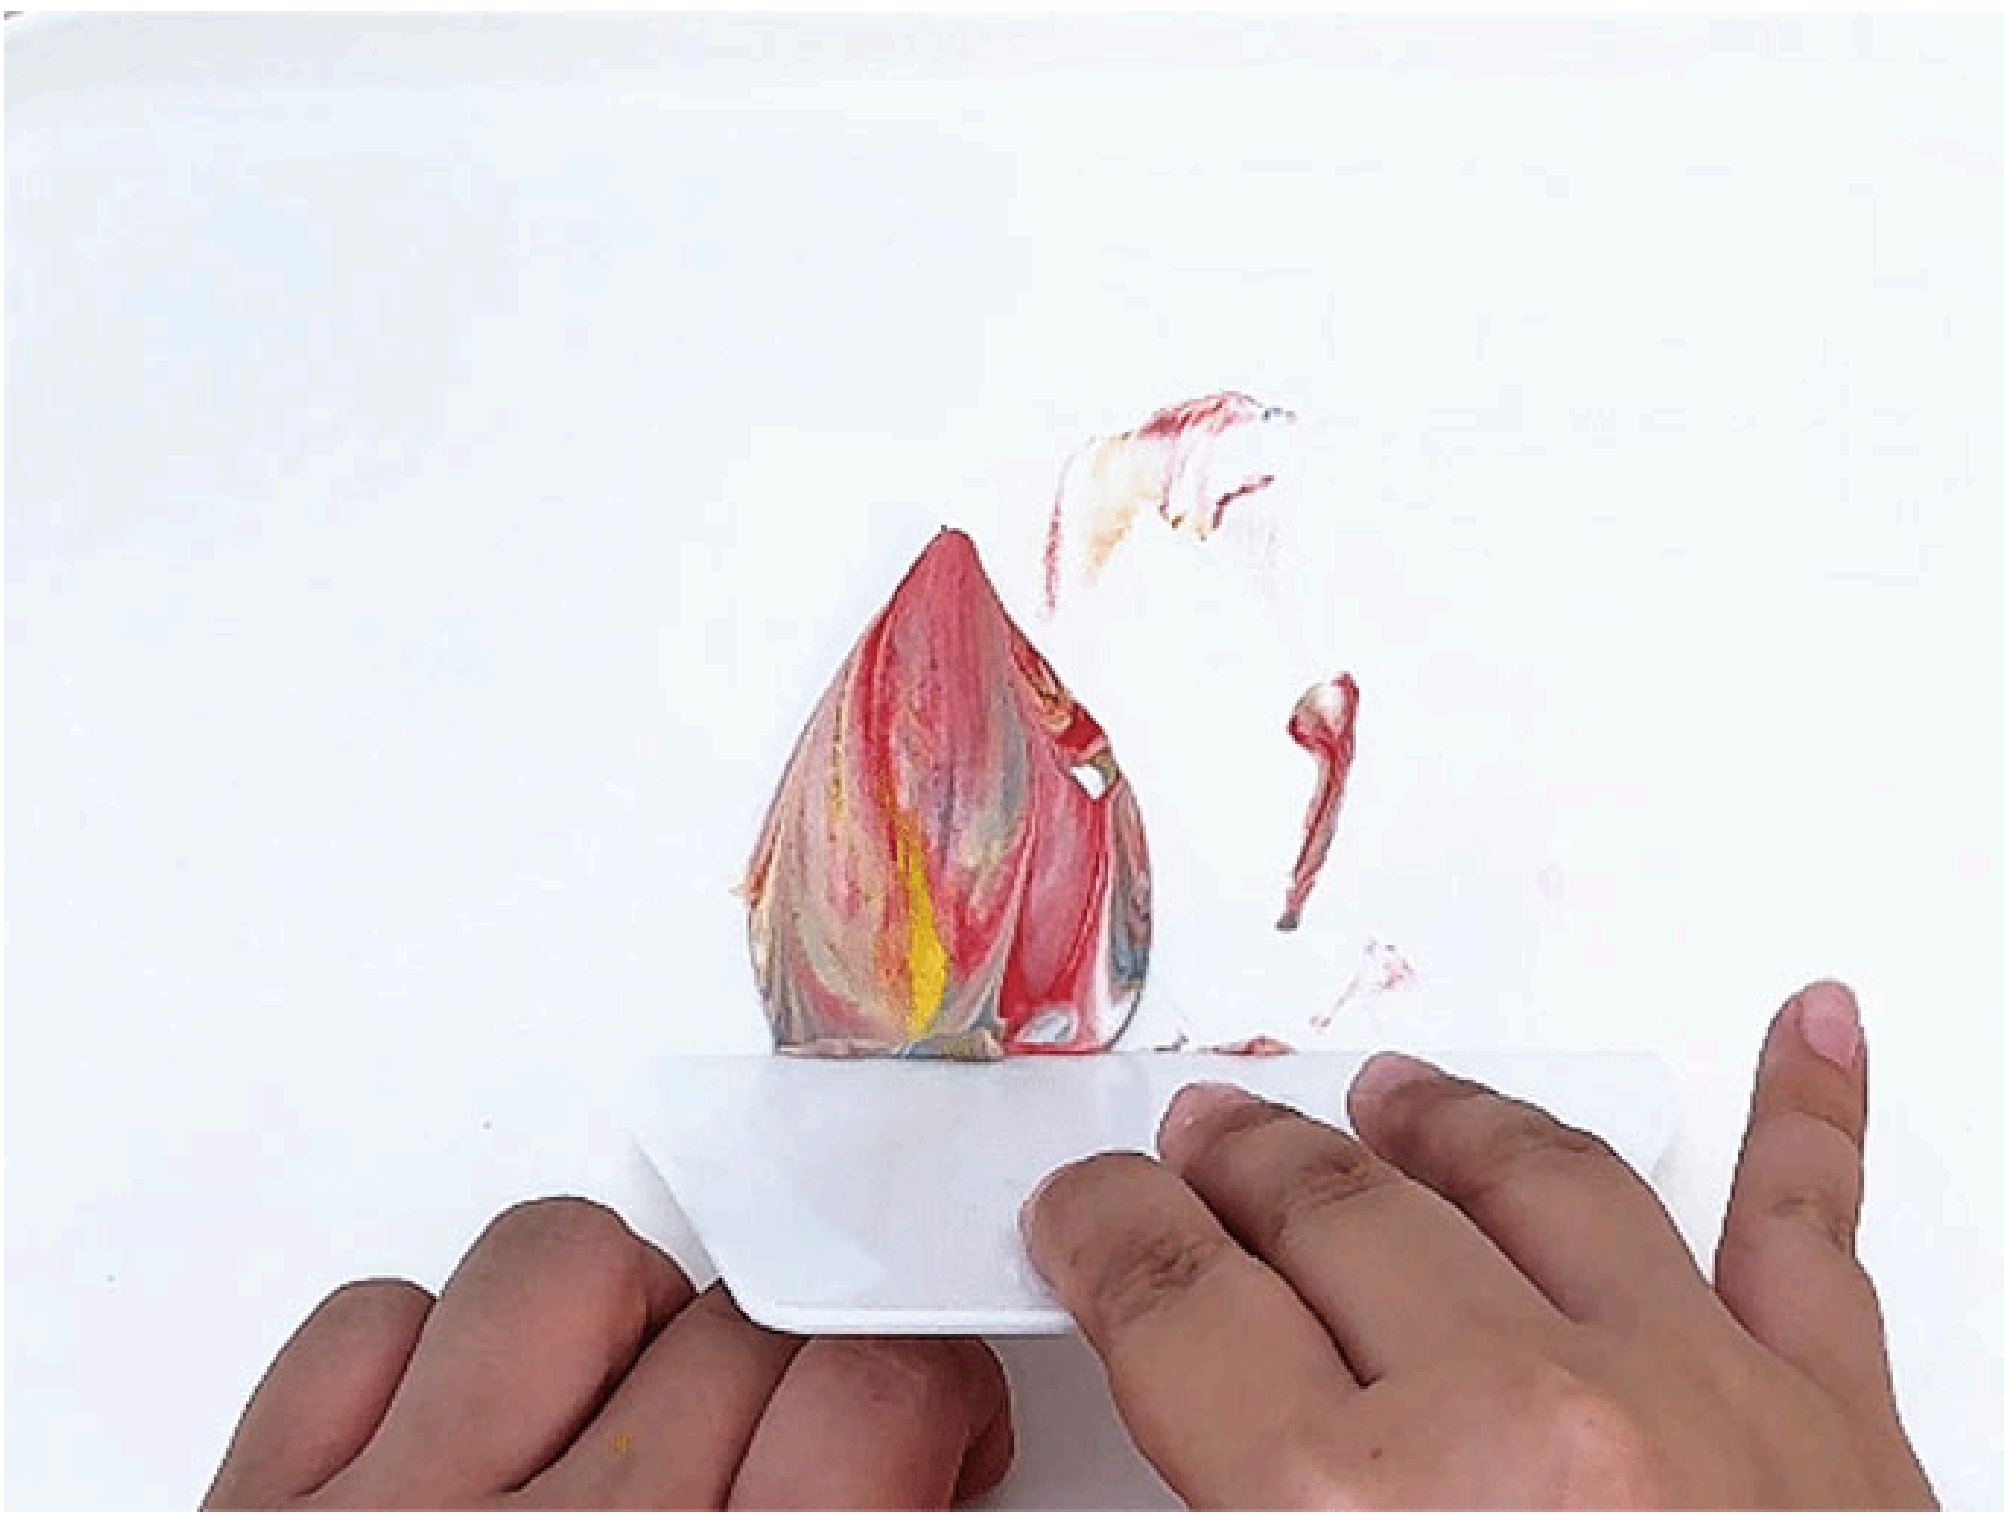

Step 5

Place the cut-out paper leaves onto the shaving foam mixture, ensuring they're fully covered.

Step 6

Remove the paper leaves from the foam and use the scraper to remove excess foam mixture.

Step 7

Now your handmade leaves are complete - try designing different patterns using various colours!
