

Jingle All the Way: Dancing Reindeer Craft!

October 22, 2024 / DIY / Artistic Adventures / Quick Easy Craft Activities / Age 6 - 8 / Dancing Reindeer

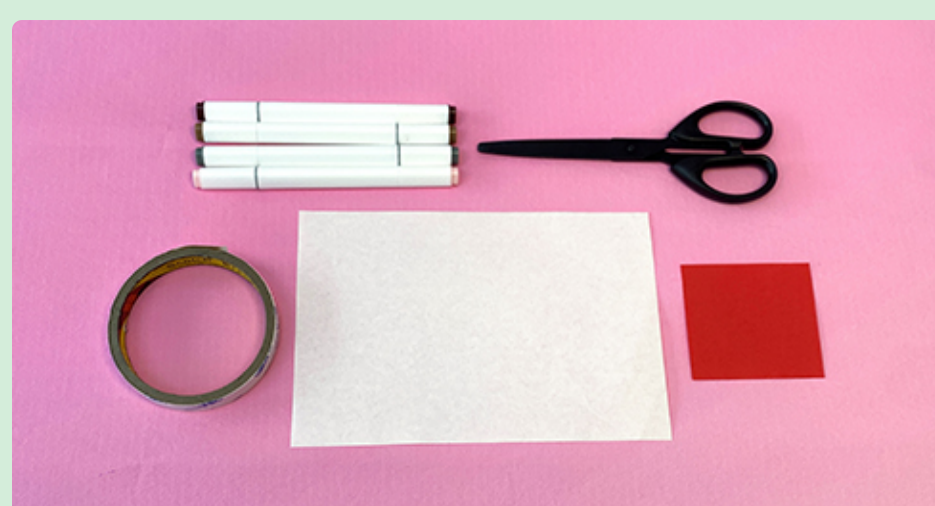

How can you turn a piece of card paper into a cute Christmas reindeer that can wiggle? Experience this simple craft idea during the Christmas season and let's dance together to the music.

- Age: 6-8
- Time: 30 minutes
- Messiness level: A little messy

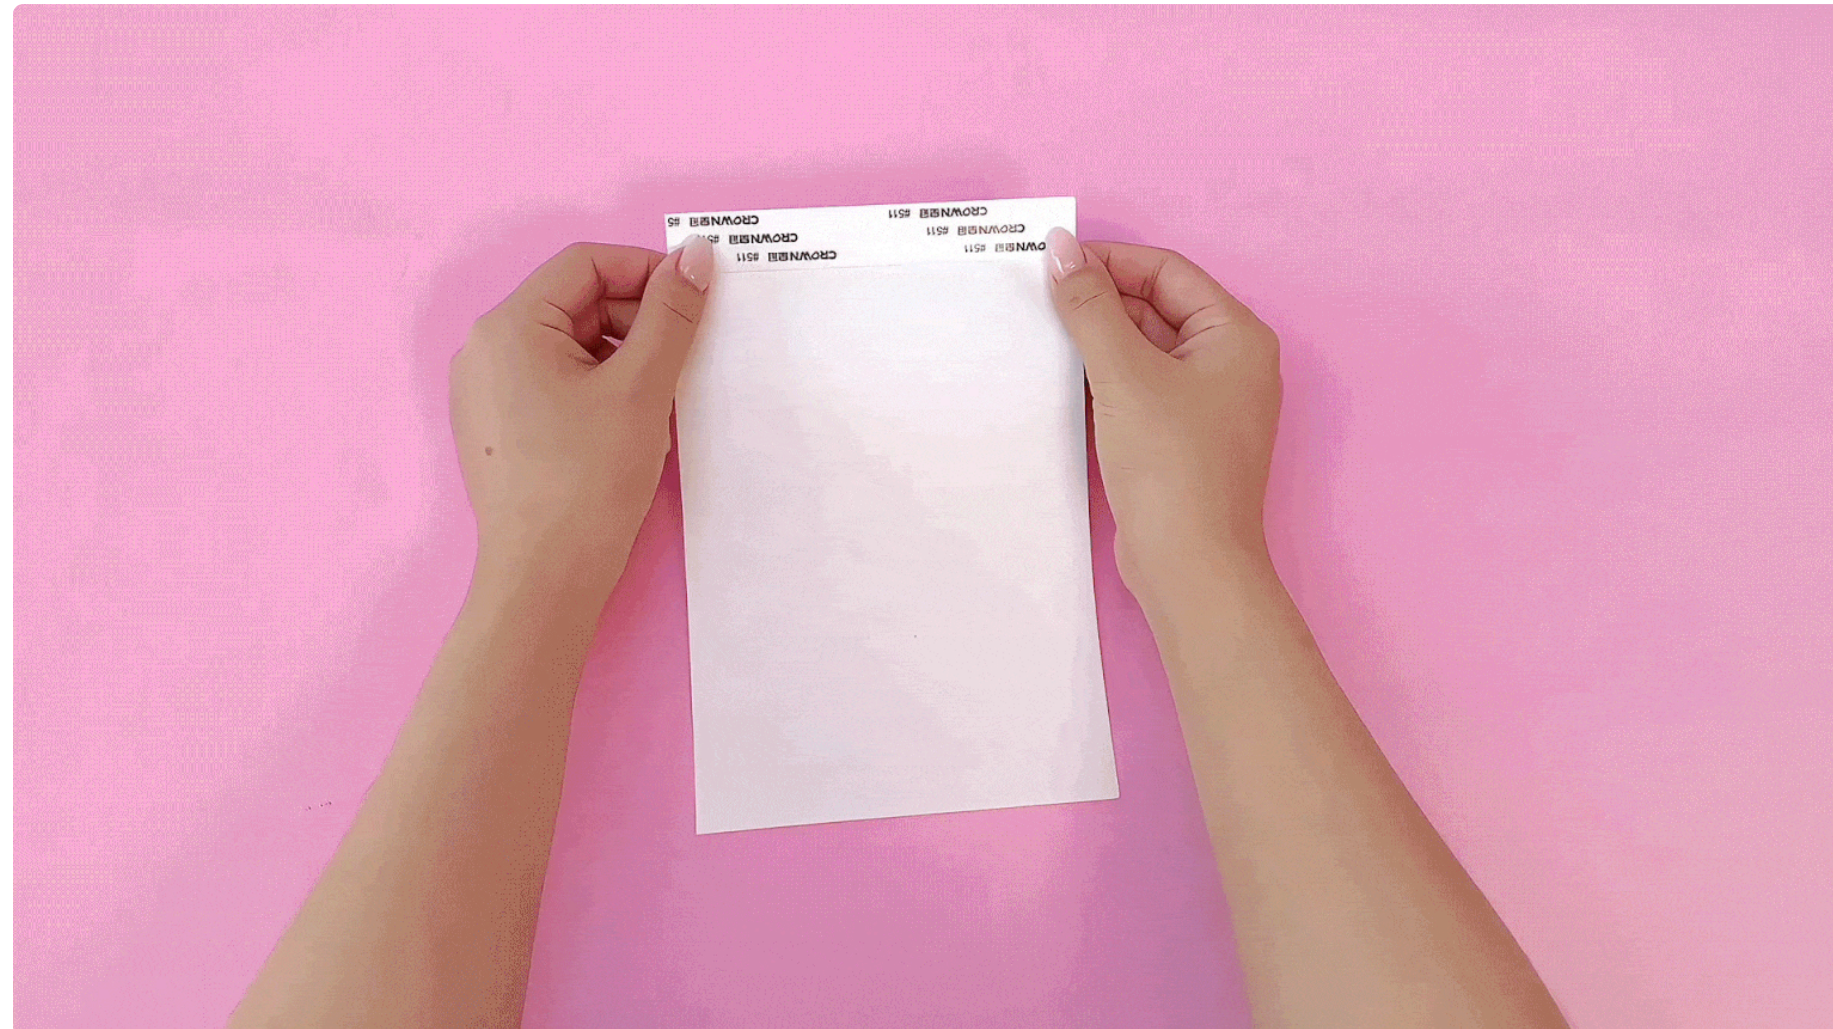

Materials Needed:

Markers
Scissors
Construction Paper
Double-Sided Tape

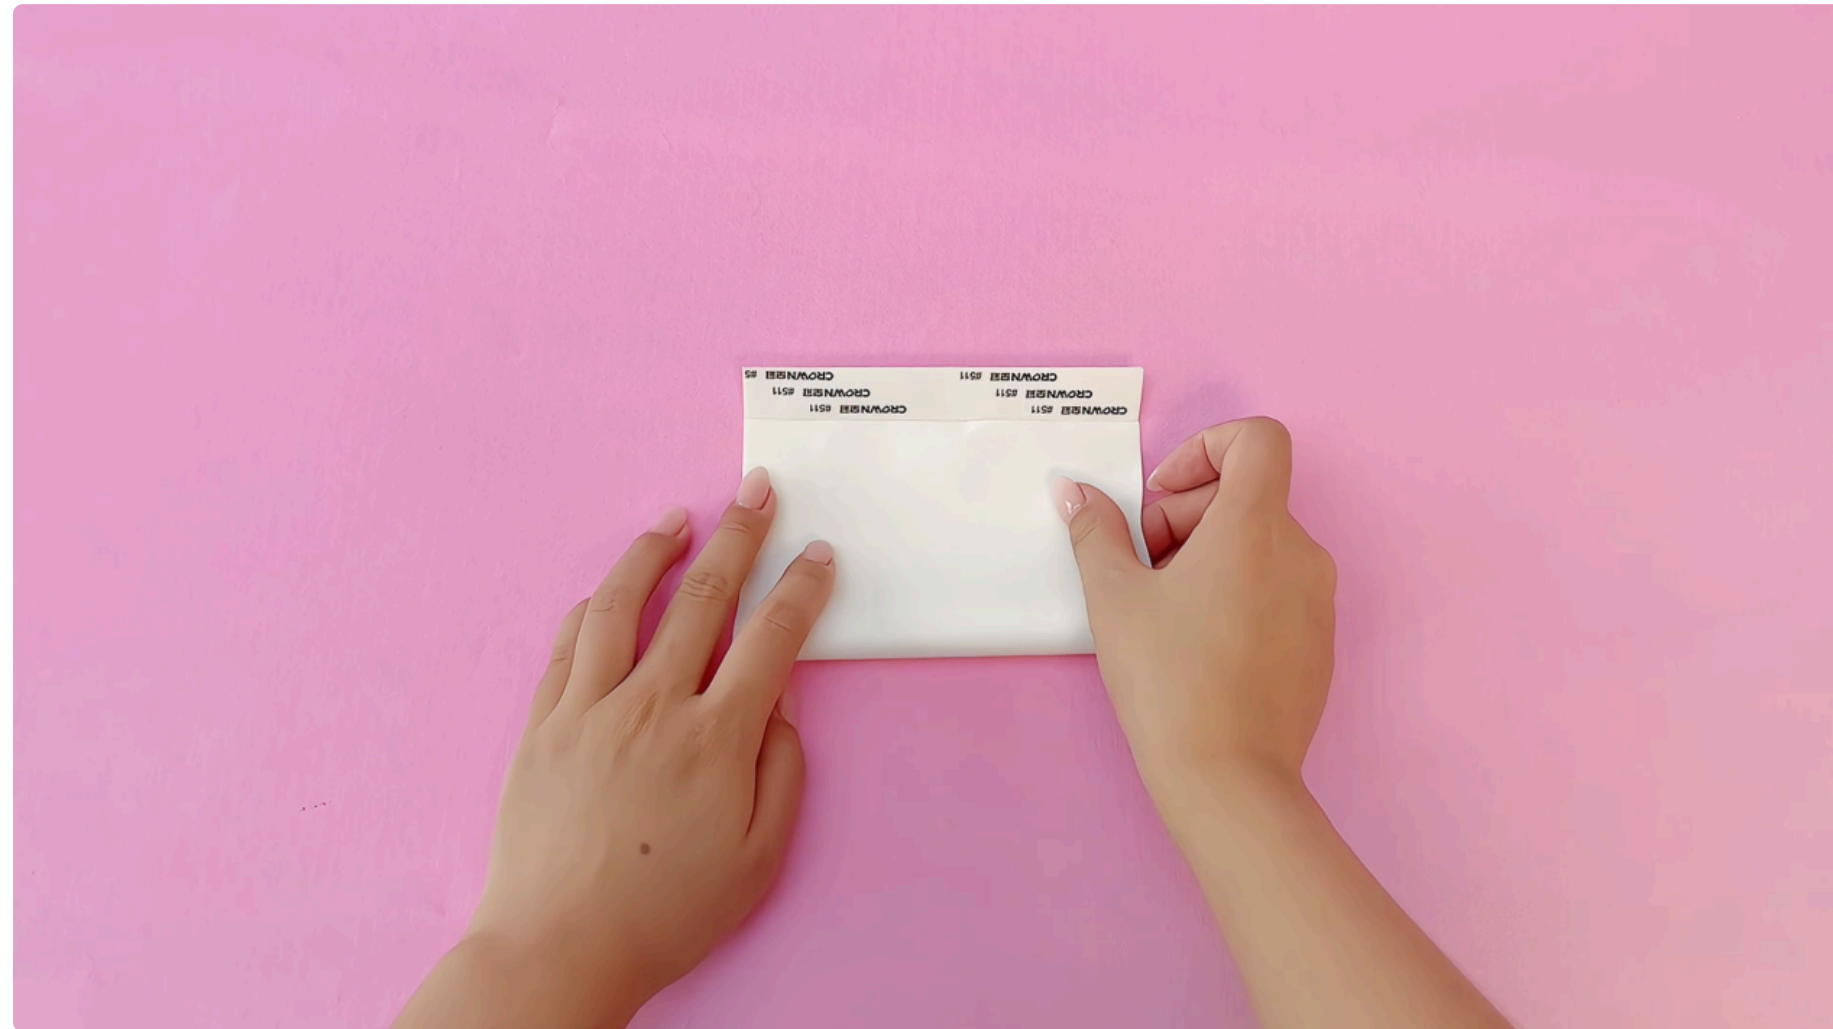

Step-by-Step Instructions:

1. Stick double-sided tape at the top of a white paper, and fold the paper along the edge of the tape.

2. Fold the remaining part of the paper in half, excluding the taped area. Peel off the tape backing and stick it down along the fold onto the folded paper.

3. Fold the glued paper in half again, then open it to form a shape similar to a cube.

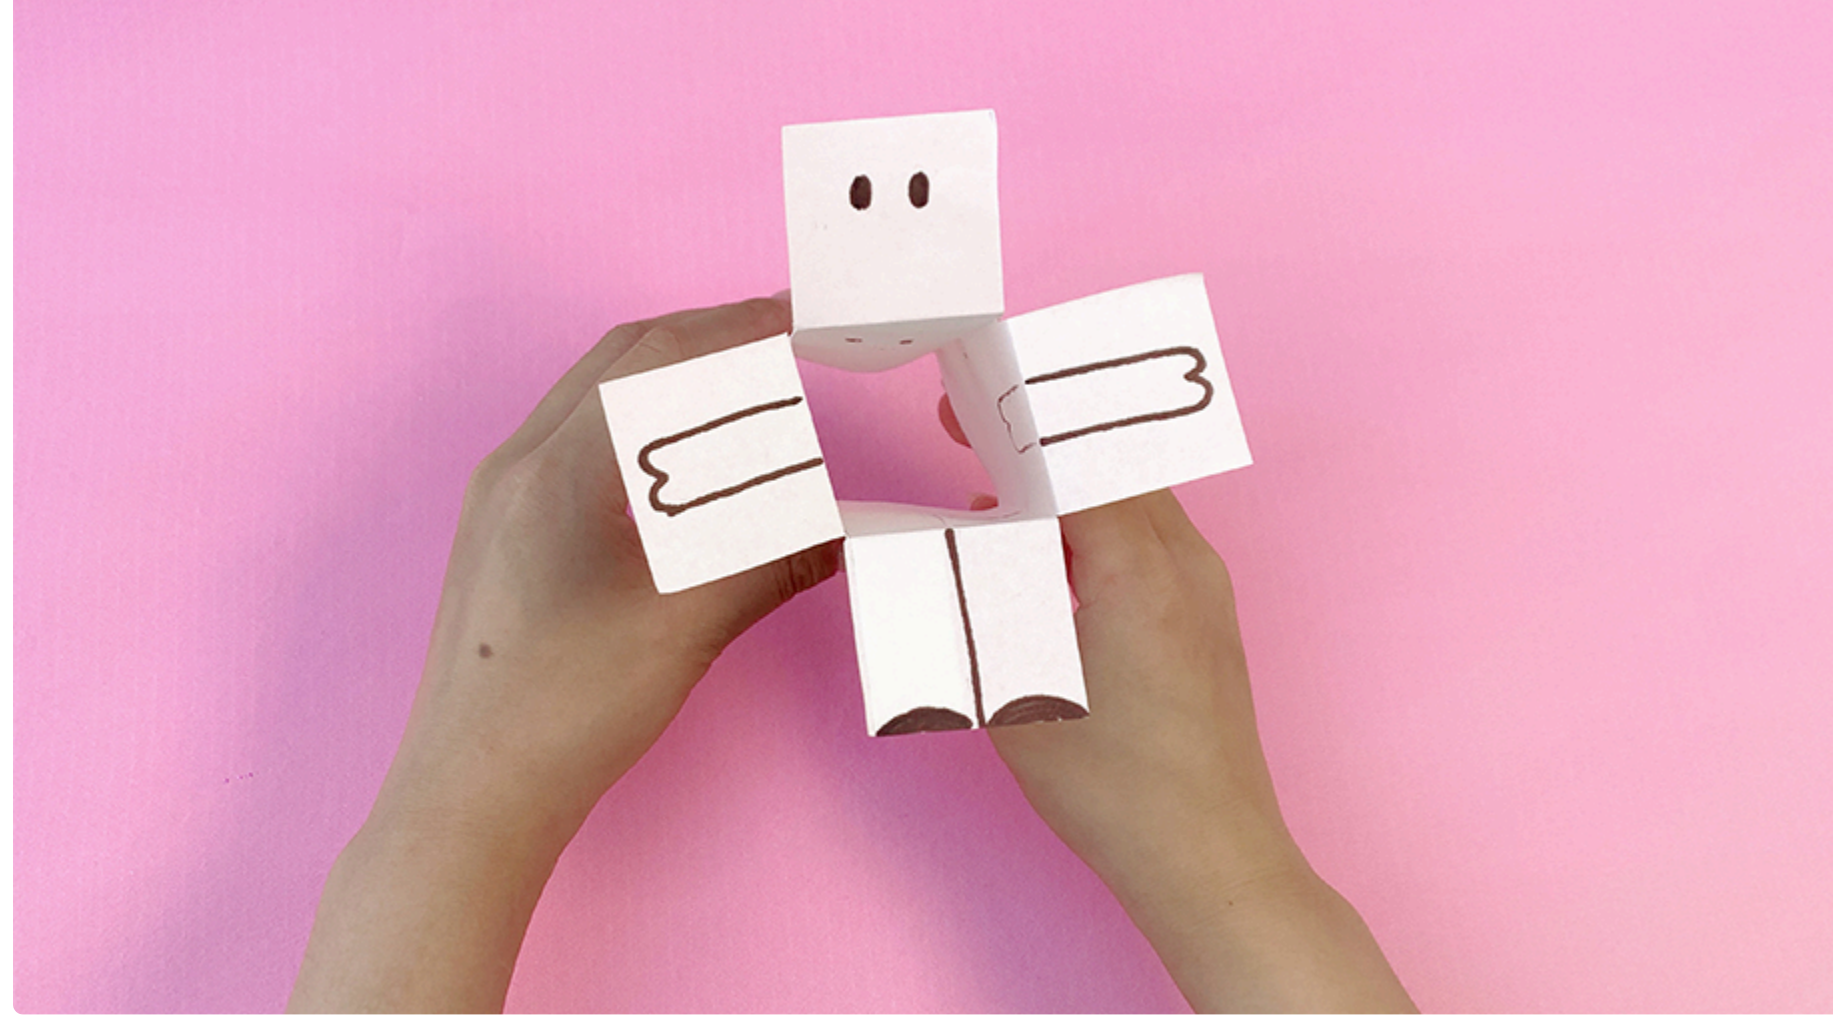

4. Use scissors to cut along the four fold lines, making cuts about the same length as the edges of the square.

5. After cutting, fold the paper backwards as shown in the image below.

6. Use markers to draw eyes on one face, and draw hands and feet on the other three pieces of paper.

7. Draw the deer's horns, ears and nose on another piece of paper, cut them out and stick them on the deer's head.

8. Use the same method to create your favorite Christmas image!
